

Focused Toolkit for Journal Editors and Publishers: Building Diversity, Equity, Inclusion, and Accessibility in Editorial Roles and Peer Review (C4DISC)

The toolkit is focused on building representation among peer reviewers and fostering equity in the actions of peer reviewers. It is also dedicated to building DEIA into core aspects of the wider editorial endeavor. While it has detailed, and in places, useful, guidance, and is very new (published May 2024) the majority of the advice is only relevant to very large and well-funded outfits with robust reporting tools, mostly with a focus on journals. It also mentions open access as a facet of equity, but suggests using transformative agreements.
