

PALOMERA

Recommendations for Open Access Academic Book Policies

The PALOMERA project, which ended in early 2025, aimed to ensure academic books and monographs are not neglected in Open Science and Open Access policies. One of the main project outputs was a Knowledge Base of relevant funder policies from within the European Research Area (ERA).

Subsequently, PALOMERA also created a set of actionable guidelines to support and coordinate funder and institutional policies for OA books, with the goal of speeding up the transition to OA for books in particular.
